

## FULLY PROGRAMMABLE

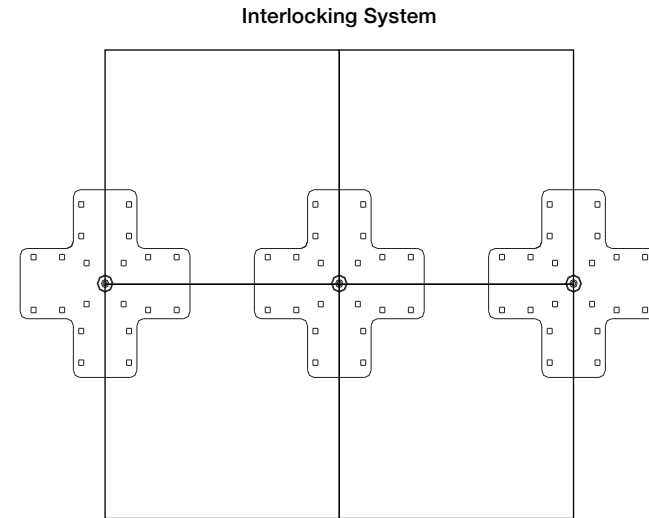

This multi colored edge lit LED Infinity panel can be used in a wide variety of applications. It is fully programmable and comes with over a hundred different pre-loaded settings. Using the provided DMX Controller, they can also be synced to music.

The internal structure is designed to support significant weight and stress. This provides a great platform to display automobiles, or other larger items.

The panels can also be mounted on wall or ceilings, providing even more display options.
